

## PRODUCT DATA SHEET

# AMS+NIS

*Convenient Liquid AMS Premix with Built-In Surfactant*

### PRODUCT DESCRIPTION:

A user friendly premix of ammonium sulfate and surfactant designed for use with glyphosate and other pesticide systems.

### PRINCIPAL FUNCTIONING AGENTS

Ammonium sulfate, polyols, alkyl polyoxyethylene sulfate and aryl sulfonate .....48.00%

Constituents Ineffective as Spray Adjuvants .....52.00%

**TOTAL** .....**100.00%**

### BENEFITS OF USING DRT

- Improved wetting
- Increased surface tension reduction
- Enhanced herbicide movement through leaf surface
- Guards against hard water antagonism that reduces herbicide activity.
- Adds ammonium ions to help increase plant uptakes of herbicide.
